

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere especially where I live up in the mountains. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what we are permitted to hear. Please reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve. Thank you.
